Hunting Safety

Hunting is a popular outdoor activity. Whether it's for sport or for sustenance, hunting requires you to be focused, skilled and patient. Hunting can be VERY dangerous as hundreds of hunters suffer injuries every year. It's important to know the dangers before you head out on a hunt.

HUNTING SAFETY

- Tell someone where you will be hunting.
- Avoid hunting alone. If, you go alone be careful and hunt in familiar areas.
- Check weather forecast before going into woods.
- Dress properly and be prepared for the worst possible conditions.
- Identify target before shooting.
- Check hunting equipment before and after each outing.

GUN SAFETY

- Safety on weapon should be on at all times, unless preparing to fire at your game.
- Gun should always be pointed away from you and others, and never at your own feet.
- Take proper care of your weapon

FS/HAAF Hunting season:
